## 2. Hazard(s) identification

**Classification** 

WHMIS 2015 Classification

Not classified under the Hazardous Products Regulations (SOR/2015-17)

Based on available data, the classification criteria are not met

Label Elements None required

## 3. Composition/Information on Ingredients

| Component         | CAS-No    | Weight % |
|-------------------|-----------|----------|
| White mineral oil | 8042-47-5 | > 99     |

### 4. First-aid measures

Eye Contact

Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Obtain medical attention if irritation persists.

| Skin Contact  | Wash off immediately with plenty of water for at least 15 minutes. Get medical attention if symptoms occur. |
|---|---|
| Inhalation  | Move to fresh air. If not breathing, give artificial respiration. Get medical attention if symptoms occur.  |
| Ingestion   | Do not induce vomiting. Get medical attention if symptoms occur.  |
| Most important symptoms/effects<br>Notes to Physician | No information available.<br>Treat symptomatically  |

|  | 5. Fire-fighting measures                             |
|--|---|
| Suitable Extinguishing Media                 | CO 2, dry chemical, dry sand, alcohol-resistant foam. |
| Unsuitable Extinguishing Media               | Water may be ineffective                              |
| Flash Point                                  | > 160 °C / > 320 °F                                   |
| Method -                                     | No information available                              |
| Autoignition Temperature<br>Explosion Limits | No information available                              |
| Upper  | No data available                                     |
| Lower  | No data available                                     |
| Sensitivity to Mechanical Impact             |   |
| Sensitivity to Static Discharge              | No information available                              |

#### **Specific Hazards Arising from the Chemical**

Thermal decomposition can lead to release of irritating gases and vapors. Keep product and empty container away from heat and sources of ignition.

#### **Hazardous Combustion Products**

Carbon monoxide (CO) Carbon dioxide (CO<sub>2</sub>)

#### Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

| <u>NFPA</u><br>Health<br>1   | Flammability<br>1   | Instability<br>0               | Physical hazards<br>N/A  |
|--|---|--------------------------------|--|
|  | 6. Accidental re  | lease measures                 |  |
| Personal Precautions   | Use personal protective ec<br>eyes and clothing.  | uipment. Ensure adequate ver   | ntilation. Avoid contact with skin,                                |
| Environmental Precautions  | Avoid release to the environment. See Section 12 for additional ecological information. |                                |  |
| Methods for Containment and CleanSoak up with inert absorbent material. Keep in suitable, closed containers for disposal.UpContaminated surfaces will be extremely slippery. |   |                                |  |
|  | 7. Handling   | and storage                    |  |
| Handling   |   | gestion and inhalation. Keep a | entilation. Avoid contact with skin,<br>away from open flames, hot |

StorageKeep containers tightly closed in a dry, cool and well-ventilated place. Keep away from heat<br/>and sources of ignition.

### 8. Exposure controls / personal protection

Exposure Guidelines

This product does not contain any hazardous materials with occupational exposure limitsestablished by the region specific regulatory bodies.

#### Engineering Measures

None under normal use conditions.

#### Personal protective equipment

| Wear appropriate protective eyeglasses or chemical safety goggles as described by<br>OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166. |  |  |
|--|--|--|
| Wear appropriate protective gloves and clothing to prevent skin exposure.  |  |  |
| Breakthrough time  | Glove thickness  | Glove comments   |
| See manufacturers recommendations  | -  | Splash protection only   |
|  | OSHA's eye and face prote<br>EN166.<br>Wear appropriate protective<br>Breakthrough time<br>See manufacturers | OSHA's eye and face protection regulations in 29 CFR 19<br>EN166.<br>Wear appropriate protective gloves and clothing to preven<br>Breakthrough time Glove thickness<br>See manufacturers - |

Inspect gloves before use. observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. (Refer to manufacturer/supplier for information) gloves are suitable for the task: Chemical compatability, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion. gloves with care avoiding skin contamination.

#### **Respiratory Protection**

No protective equipment is needed under normal use conditions.

Recommended Filter type: Particle filter

#### Environmental exposure controls

No information available.

#### **Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs. Do not eat, drink or smoke when using this product. Remove and wash contaminated clothing before re-use. Wash hands before breaks and at the end of workday.

|                                  | 9. Physical and chemical properties |
|----------------------------------|-------------------------------------|
| Physical State                   | Liquid                              |
