

# SAFETY DATA SHEET

Creation Date 26-September-2009

Revision Date 21-February-2018

**Revision Number** 1

# 1. Identification Product Name 1-Pentanol Cat No. : 30898 CAS-No 71-41-0 Synonyms Pentyl alcohol; n-Amyl alcohol Recommended Use Laboratory chemicals. Uses advised against Not for food, drug, pesticide or biocidal product use

### Details of the supplier of the safety data sheet

### <u>Company</u>

Alfa Aesar Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street Ward Hill, MA 01835-8099 Tel: 800-343-0660 Fax: 800-322-4757 **Email:** tech@alfa.com www.alfa.com

### **Emergency Telephone Number**

During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (800) 579-7421.

# 2. Hazard(s) identification

### Classification

WHMIS 2015 Classification

Classified as hazardous under the Hazardous Products Regulations (SOR/2015-17)

Flammable liquids	Category 3
Acute Inhalation Toxicity	Category 4
Skin Corrosion/irritation	Category 2
Serious Eye Damage/Eye Irritation	Category 2
Specific target organ toxicity (single exposure)	Category 3
Target Organs - Respiratory system.	

### Label Elements

Signal Word Warning

### Hazard Statements

Flammable liquid and vapor Harmful if inhaled Causes skin irritation Causes serious eye irritation May cause respiratory irritation

### Precautionary Statements Prevention

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking

Keep container tightly closed

Ground/bond container and receiving equipment

Use explosion-proof electrical/ventilating/lighting/equipment

Use only non-sparking tools

Take precautionary measures against static discharges

Avoid breathing dust/fume/gas/mist/vapors/spray

Wash face, hands and any exposed skin thoroughly after handling

Use only outdoors or in a well-ventilated area

Wear protective gloves/protective clothing/eye protection/face protection

### Response

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/ shower

IF INHALED: Remove person to fresh air and keep comfortable for breathing

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing Call a POISON CENTER/ doctor if you feel unwell

Wash contaminated clothing before reuse

In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish

### Storage

Store in a well-ventilated place. Keep container tightly closed

### Store locked up

### Disposal

Dispose of contents/container to an approved waste disposal plant

### Other Hazards

Stench

# 3. Composition/Information on Ingredients

Component	CAS-No	Weight %
1-Pentanol	71-41-0	>95

4. First-aid measures					
General Advice	If symptoms persist, call a physician.				
Eye Contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical attention.				
Skin Contact	Wash off immediately with plenty of water for at least 15 minutes. If skin irritation persists, call a physician.				
Inhalation	Move to fresh air. If not breathing, give artificial respiration. Get medical attention if symptoms occur.				
Ingestion	Clean mouth with water and drink afterwards plenty of water.				

Most important symptoms/effects         None reasonably foreseeable Symptoms of overexposure may be headache, di tiredness, nausea and vomiting           Notes to Physician         Treat symptomatically

### **Engineering Measures**

Use explosion-proof electrical/ventilating/lighting/equipment. Ensure that eyewash stations and safety showers are close to the workstation location. Ensure adequate ventilation, especially in confined areas.

Wherever possible, engineering control measures such as the isolation or enclosure of the process, the introduction of process or equipment changes to minimise release or contact, and the use of properly designed ventilation systems, should be adopted to control hazardous materials at source

### Personal protective equipment

Eye Protection Hand Protection	Goggles Protective gloves	66					
Glove material Nitrile rubber Neoprene Natural rubber PVC	Breakthrough time See manufacturers recommendations	Glove thickness -	Glove comments Splash protection only				

Inspect gloves before use. observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. (Refer to manufacturer/supplier for information) gloves are suitable for the task: Chemical compatability, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion. gloves with care avoiding skin contamination.

### **Respiratory Protection**

When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced. To protect the wearer, respiratory protective equipment must be the correct fit and be used and maintained properly **Recommended Filter type:** Organic gases and vapours filter Type A Brown conforming to EN14387

When RPE is used a face piece Fit Test should be conducted

### Environmental exposure controls

No information available.

### **Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs. Do not eat, drink or smoke when using this product. Remove and wash contaminated clothing before re-use. Wash hands before breaks and at the end of workday.

	9. Physical and chemical properties							
Physical State	Liquid							
Appearance	Colorless							
Odor	Stench							
Odor Threshold	No information available							
рН	7 25 g/l water							
Melting Point/Range	-78 °C / -108.4 °F							
Boiling Point/Range	137 - 139 °C / 278.6 - 282.2 °F							
Flash Point	49 °C / 120.2 °F							
Evaporation Rate	No information available							
Flammability (solid,gas)	Not applicable							
Flammability or explosive limits								
Upper	10.5 Vol%							
Lower	1.3 Vol%							
Vapor Pressure	2.6 mbar							
Vapor Density	3.0 (Air = 1.0)							
Specific Gravity	0.811							
Solubility	22 g/L water (22°C)							

Partition coefficient; n-octanol/water Autoignition Temperature Decomposition Temperature Viscosity Molecular Formula Molecular Weight No data available 300 °C / 572 °F No information available 4 mPa s at 20 °C C5 H12 O 88.15

10. Stability and reactivity					
Reactive Hazard	None known, based on information available				
Stability	Hygroscopic.				
Conditions to Avoid	Keep away from open flames, hot surfaces and sources of ignition. Excess heat. Incompatible products. Exposure to moist air or water.				
Incompatible Materials	Strong oxidizing agents, Metals				
Hazardous Decomposition Products Carbon monoxide (CO), Carbon dioxide (CO2)					
Hazardous Polymerization	No information available.				
Hazardous Reactions	None under normal processing.				

11. Toxicological information

## Acute Toxicity

### Product Information

### **Other Adverse Effects**

The toxicological properties have not been fully investigated.

# 12. Ecological information

### Ecotoxicity

Do not flush into surface water or sanitary sewer system. Do not allow material to contaminate ground water system. Do not empty into drains.

Component	Freshwater Algae	Freshwater Fish	Microtox	Water Flea
1-Pentanol		LC50: 370 - 490 mg/L, 96h static (Oncorhynchus mykiss) LC50: = 650 mg/L, 96h static (Lepomis macrochirus) LC50: = 530 mg/L, 96h static (Brachydanio rerio) LC50: 437 - 511 mg/L, 96h flow-through (Pimephales promelas)	Not listed	EC50: = 341 mg/L, 48h (Daphnia magna)

Persistence and Degradability Soluble in water Persistence is unlikely based on information available.

**Bioaccumulation/ Accumulation** 

No information available.

Mobility

. Will likely be mobile in the environment due to its water solubility.

Component	log Pow
1-Pentanol	1.4

# 13. Disposal considerations

Waste Disposal Methods

Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations to ensure complete and accurate classification.

	14. Transport information					
DOT						
UN-No	UN1105					
Proper Shipping Name	PENTANOLS					
Hazard Class	3
