

SAFETY DATA SHEET

Revision Date 22-March-2018

Revision Number 1

	1. Identification
Product Name	Tetraethylammonium perchlorate
Cat No. :	44062
CAS-No Synonyms	2567-83-1 Ammonium, Tetraethyl-, Perchlorate.; Ethanaminium, N,N,N-Triethyl-, Perchlorate
Recommended Use Uses advised against	Laboratory chemicals. Food, drug, pesticide or biocidal product use

Details of the supplier of the safety data sheet

Company Alfa Aesar Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street Ward Hill, MA 01835-8099 Tel: 800-343-0660 Fax: 800-322-4757 Email: tech@alfa.com www.alfa.com

Emergency Telephone Number

During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (800) 579-7421.

2. Hazard(s) identification

Classification

WHMIS 2015 Classification

Classified as hazardous under the Hazardous Products Regulations (SOR/2015-17)

Oxidizing solids Skin Corrosion/irritation Serious Eye Damage/Eye Irritation	Category 1 Category 2 Category 2
Specific target organ toxicity (single exposure)	Category 3
Target Organs - Respiratory system.	

Label Elements

Signal Word Danger

Hazard Statements

May cause fire or explosion; strong oxidizer Causes skin irritation

Causes serious eye irritation May cause respiratory irritation

Precautionary Statements Prevention

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking

Keep/Store away from clothing/combustible materials

Take any precaution to avoid mixing with combustibles

Avoid breathing dust/fume/gas/mist/vapors/spray

Wash face, hands and any exposed skin thoroughly after handling

Use only outdoors or in a well-ventilated area

Wear protective gloves/protective clothing/eye protection/face protection

Wear fire/flame resistant/retardant clothing

Response

IF ON SKIN: Wash with plenty of soap and water

IF INHALED: Remove person to fresh air and keep comfortable for breathing

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing IF ON CLOTHING: Rinse immediately contaminated clothing and skin with plenty of water before removing clothes

Call a POISON CENTER/ doctor if you feel unwell

Wash contaminated clothing before reuse

In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish

In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion **Storage**

Store in a well-ventilated place. Keep container tightly closed

Store locked up

Disposal

Dispose of contents/container to an approved waste disposal plant

3. Composition/Information on Ingredients

Component	CAS-No	Weight %
Tetraethylammonium perchlorate	2567-83-1	95

4. First-aid measures			
General Advice	If symptoms persist, call a physician.		
Eye Contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical attention.		
Skin Contact	Wash off immediately with plenty of water for at least 15 minutes. If skin irritation persists, call a physician.		
Inhalation	Move to fresh air. If not breathing, give artificial respiration. Get medical attention if symptoms occur.		
Ingestion	Clean mouth with water and drink afterwards plenty of water. Get medical attention if symptoms occur.		

Most important symptoms/effects	None
Notes to Physician	Treat

None reasonably foreseeable. Treat symptomatically

	5. Fire-fightir	ig measures	
Unsuitable Extinguishing Media	No information available		
Flash Point Method -	Not applicable No information available		
Autoignition Temperature Explosion Limits	No information available		
Upper	No data available		
Lower Oxidizing Properties	No data available Oxidizer		
Sensitivity to Mechanical Impa Sensitivity to Static Discharge			
Specific Hazards Arising from the Oxidizer: Contact with combustible/o		. May ignite combustibles (wo	ood paper, oil, clothing, etc.).
Hazardous Combustion Products Carbon monoxide (CO) Carbon dioxi Protective Equipment and Precaut As in any fire, wear self-contained br protective gear.	ions for Firefighters		ved or equivalent) and full

Engineering Measures

Ensure that eyewash stations and safety showers are close to the workstation location. Ensure adequate ventilation, especially in confined areas.

Wherever possible, engineering control measures such as the isolation or enclosure of the process, the introduction of process or

equipment changes to minimise release or contact, and the use of properly designed ventilation systems, should be adopted to control hazardous materials at source

Personal protective equipment

Eye Protection Hand Protection	,			
Glove material Nitrile rubber Neoprene Natural rubber PVC	Breakthrough time See manufacturers recommendations	Glove thickness -	Glove comments Splash protection only	

Inspect gloves before use. observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. (Refer to manufacturer/supplier for information) gloves are suitable for the task: Chemical compatability, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion. gloves with care avoiding skin contamination.

Respiratory Protection

When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced. To protect the wearer, respiratory protective equipment must be the correct fit and be used and maintained properly **Recommended Filter type:** Particulates filter conforming to EN 143

When RPE is used a face piece Fit Test should be conducted

Environmental exposure controls

No information available.

Hygiene Measures

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs. Do not eat, drink or smoke when using this product. Remove and wash contaminated clothing before re-use. Wash hands before breaks and at the end of workday.

	13. Disposal considerations
Mobility	Is not likely mobile in the environment due its low water solubility.
Bioaccumulation/ Accumulation	No information available.
Persistence and Degradability	May persist based on information available.
Do not empty into drains.	

Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations to ensure complete and accurate classification.
